EVERYMAN CHESS

John Emms

# attacking with 1 e4

- All possible defences to 1 e4 are covered
- Written by a battle-hardened 1 e4 player

Fed up with having to learn so much opening theory? Struggling to keep up with all the latest developments? Then this book will be the answer to all your problems! Grandmaster John Emms offers a new arsenal of opening weapons with which to attack to your unsuspecting opponents. Starting with the move 1 e4, the reader is armed with systems against all possible black defences. In each case learning ideas is more important than memorising long variations, so this repertoire should be ideal for players who don't have the luxury of being able to spend countless hours studying theory. Each line is easy to learn and play, but they will still pose your opponent difficult problems to solve over the board.

**John Emms** is one of Britain's strongest Grandmasters and was a member of the England team which played in the 2000 Chess Olympiad in Istanbul. He has also carved out a reputation for being an excellent chess writer and has many works under his name. He is co-author of the very popular openings bible *Nunn's Chess Openings*, also published by Everyman Chess
